

# APPROPEDIA

the sustainability wiki.

[www.appropedia.org](http://www.appropedia.org)

*collaborative approaches to sustainability,  
poverty reduction and international development*

## www.appropedia.org

Our vision is that all of humanity is able to work together developing and realising rich, sustainable lives. We build the infrastructure, and help make the connections and populate free content to effect that vision.

We provide the living resource library of individuals and organisations working towards a sustainable, healthier future, so that effort can be spent on sharing and evolving ideas.
