# Video Setup Guide

# For connecting iOS camera to Windows PC

# with Iriun Webcam

**Introduction:** This is a video setup guide for recording a video from iOS mobile device's camera to Windows PC by using Iriun Webcam application.

### Step 1. Download the software for Windows

- Download Iriun Webcam software by clicking on the "Webcam for Windows" button from this link: https://iriun.com/
- Double click on the downloaded setup file and follow the instructions.
- Start the Iriun Webcam application on your computer.

### Step 2. Install the software for iOS mobile device
- Go to App Store on your mobile device and search "Iriun".
- Click the "Get" button if you see the Iriun Webcam application logo as below.

- Open the Iriun Webcam application on your phone once it is installed and grant the permissions.

### Step 3.1. Connect by USB

- Connect your mobile device to the PC with a USB cable.
- Once the app is open on the phone screen, the USB will automatically recognize the PC and connect to the app you installed on Windows.
- You are now connected and ready to record your video.

**Step 3.2. Connect by Wi-Fi**

- Make sure your computer and your mobile device are connected to the same Wi-Fi network.
- Open the application on your mobile phone and the Windows software on your computer.
- The application on the mobile device will automatically detect your computer and give you the option to connect.
- For recording the video, you can use Zoom application. Review the guide below.

**Step 4. Record the Video**

- Download Zoom software from this link to your PC.
- Install the application by double-clicking on it and following the instructions on the screen.
- Sign in to Zoom and start a new meeting.

- Go to video settings by clicking on the arrow on the camera icon and select "Iriun Webcam" and enable the video by clicking on the camera icon. Now you will be able to see the view from your phone screen on the Zoom call.

- Click on the "Record" button to start recording.

- Click on the "Stop" button to stop the recording. Please note that all Zoom recordings are being saved to C:\Users\<Username>\Documents\Zoom\ folder.

- Your video is now ready for being uploaded.
